Company Skills and Operations

CAPESECURE (PTY) LTD is an international Security Service Provider operating all over the world based in Cape Town, South Africa. **CAPESECURE (PTY) LTD** is serving as a security and consultancy company that uses its defined knowledge from various fields of security national and international trade to create solutions most suitable for the individual needs of its clients.

These solutions include Special Services, Investigation, Art Crime, Consultations, Technical as well as Control Room Services, with all these; ideal solutions are reached through initial detailed assessment of client's requirements to the planning and execution of the service.

Other solutions include protection services of persons as well as property and objects, with all handled in a professional manner due to the reliable partnerships developed through various institutions.

CAPESECURE (PTY) LTD operates with partner companies all over the world, securing global connectivity with regards to the above, as well as for the coordination and negotiations of specialised trade between South Africa and other Global entities.

These International relations ensure clientele that they are getting the most up to date, efficient and resourceful solutions offered on the market, both locally and globally.

Clients and Customers

With a wide spectrum of customers from the commercial, private and public sectors, along with the diversity of skills offered by **CAPESECURE (PTY) LTD**, the company does not have a standardised form of clientele or solutions, as the optimal solution is achieved through the detailed assessment of each client's specific concerns and requirements.

The combination of the skills and expertise of the **CAPESECURE (PTY) LTD** team, as well as the international partners, create the opportunity to deal with an array of clientele that differ substantially in terms of the services required, and it is this vast experience and knowledge we achieve an outstanding rate of success.

Company Structure

In order to reach maximum efficiency **CAPESECURE (PTY) LTD** bases its concept of operations on the separation of skills and performance. The company receives guidance from its central management division, but operates with individually focused sub divisions in order to optimize the solution for the unique needs of each client.
